

Séminaire Laurent Schwartz

EDP et applications

François Golse (*École Polytechnique*)
Frank Merle (*Université Cergy-Pontoise & IHÉS*)

Mardi 7 mai 2019

École polytechnique – Salle de conférence Jean Lascoux

Aile 0, Centre de Physique Théorique

11h00-12h00 – Josephine Evans (CEREMADE)

«Hypocoercivity in relative entropy for the linear relaxation Boltzmann equation»

14h00-15h00 – Shi Jin (Shanghai Jiao – Tong University)

«Semiclassical computational methods for quantum dynamics with band-crossing and uncertainty»
