

Séminaire Laurent Schwartz

EDP et applications

François Golse (*École polytechnique*)
Frank Merle (*Université Cergy-Pontoise & IHÉS*)

Mardi 3 mai 2016

IHÉS – Centre de conférences Marilyn et James Simons

11h00-12h00 – *Yang LAN (IHÉS, Paris-Sud)*

“Stable self-similar blow-up dynamics for slightly L^2 -supercritical generalized KdV equations”

14h00-15h00 – *Charles COLLOT (Université de Nice Sophia-Antipolis)*

“On blow-up and dynamics near ground states for some semilinear equations”

15h00-15h30 – *Jacek JENDREJ (CMLS, Ecole polytechnique)*

“Solutions of type 2 with two bubble for critical nonlinear wave equations”
